Olympia Steel Buildings Canada Supplied Mini-Storage Project in St. Albert Ontario

November 19, 2013

St Albert Storage

St. Albert Ontario (RPRN) 11/19/13 —

Olympia Steel Buildings of Canada was contracted to design, engineer and supply one Olympia Steel Buildings® Canada pre-engineered mini-storage warehouse metal buildings for a new mini-storage business in St. Albert, Ontario. The project consists of one 40'-0" x 100'-0" Mini-Storage facility. Construction of the facility was completed in the summer of 2013.

As the self storage building business has grown into a multi-billion dollar industry with current businesses expanding and new companies starting up every day, Olympia Steel Buildings Canada is reaching out to businesses to become their self storage building partner, working to provide secure and cost-effective self storage warehouses and mini-storage facilities that best suit their requirements. Olympia Steel Buildings Canada offers rental unit sizes in any combination to optimize your consumer market demands.

"I shopped around and found Olympia Steel Buildings Canada has the best web site with the most accurate information" affirms mini-storage business owner, Guylain Waither, of St. Albert Storage www.stalbertstorage.ca . "The customer service is great and Annabelle Miranda is always available and answered all of my questions – I am TOTALLY satisfied!"

Olympia Steel Buildings Canada strives to provide a variety of sought after features and benefits to self-storage building customers, including twelve panel and trim colors and virtually maintenance free durable materials.

"I am confident that our mini-storage steel buildings meet and exceed industry standards," states Annabelle Miranda, Olympia Canada sales consultant. "That is the reason our customers choose Olympia Steel Buildings Canada for their self storage building needs. Our self storage buildings are the best that money can buy."

Olympia Steel Buildings Canada continues to strive to provide quality, selection and great customer service on pre-engineered self-storage metal buildings, proving that Olympia Steel Buildings Canada pre-engineered self-storage and mini-warehouse metal buildings are an economical solution to any self-storage business.

About Olympia Steel Buildings

Olympia Steel Buildings Canada Logo

Olympia Steel Buildings Canada is a proud member of The Canadian Self Storage Association (CSSA). Olympia
Steel Buildings Canada are supplied by Universal Steel Buildings Corp, an industry leader in pre-engineered steel buildings for over 40 years, and sole supplier of Olympia Steel Buildings® to commercial, industrial, agricultural,
residential, government, military and civilian agencies. Olympia Steel Buildings come with their outstanding weather-resistant PBR roof system. Olympia Steel Buildings set themselves apart by using better materials, better quality control, exceptional customer service and industry-leading warranties, including a 25-year rust through perforation warranty. Olympia pre-engineered steel buildings are precision engineered and expertly erected to give you a “tight” building that reduces air infiltration into the building saving on HVAC costs. They offer 12 energy efficient colors for metal buildings to reduce cooling costs and come with a 40-year warranty against chipping, cracking, peeling or blistering. Because of such key features, Olympia pre-engineered steel buildings can qualify under LEED Green Building guidelines.
