The World Registry Of Wills Supports The Canadian Diabetes Association

October 19, 2010

World Registry Of Wills

Calgary, AB (RPRN) 10/19/10 — In Support of Diabetes Awareness Month, The World Registry Of Wills Is Donating 50% of Each Registration and Search Fees To The Canadian Diabetes Association

The World Registry Of Wills is the first confidential database to register the location of Wills and search for important documents

- **Starting today** and continuing throughout the year, World Registry Of Wills will be donating 50% of the fee of each registration and search fee in support of **Diabetes Awareness Month**. In addition, it is offering a fee reduction to register the locations of Wills and other confidential family documents to chronic health care patients with diabetes, heart, lung, kidney, cancer, arthritic, and any other chronic health issues, along with single mothers, and working mothers from $30.00 USF to just $10.00 USF effective immediately, until January 1st, 2011.

The **Locations and Search Registry** is a confidential database that allows the world's population to register the **location** of where they keep their Wills and other private family documents, and be able to

search this database for these documents when needed.

This service helps to address a problem encountered by the legal profession for decades. Bruce Letendre, President of World Registry Of Wills states that "80% of the world's population do not as yet have a will, and of those that do, more than half cannot be properly executed because they cannot be found when needed." The legal profession continues to urge people to draft a Will and to record its location so that it can be found when required, to avoid countless wasted hours of legal expenses added up while searching for this document, and to minimize the prolonged stressful grieving of family members, friends and business partners.

Letendre is a TYPE 2 diabetes patient of 29 years, and as such has decided to contribute 50% of each registration and search fees to the Canadian Diabetes Association in support of its efforts to lead the fight against diabetes.

According to the Canadian Diabetes Association, there are approximately a total of 9 million Canadians with diabetes, and who are prediabetic.

In 2008, the International Diabetes Association claimed there were more than 285 million diabetes patients in the worlds, and by 2050, they anticipate that number Will rise to almost 500 million!

For any special candidates who register after JANUARY 1st, 2011 the fee will be $20.00 USF.

To obtain the discount, qualifying registrants are asked to enter the special discount CODE NO" 20116779.
