

AAMI Car Insurance Launches Claim Assistant App

October 24, 2012

AAMI Claim Assist App

and then send it directly to AAMI.

Reuben Aitchison, AAMI spokesperson, said that the app is designed to ease the stress of one of life's tough moments.

“Getting in to a car crash is, hopefully, a rare event for most of us. The Claim Assist app helps people capture what happened at the scene of the accident, and collect all the information they may not know they need.”

Once the details of an accident have been sent via the app, AAMI will contact its customer with their claim number, details for repair and the option to register for the new My Claim Manager section of the AAMI website where customers can track the progress of their claim in real time.

Key features of the AAMI Claim Assist iPhone app include:

- Step-by-step list of details to be gathered at the accident scene

Sydney, Australia ([RPRN](#))
10/24/12 — AAMI, the leading national car insurer, has made making an insurance claim even quicker and easier with the launch of the new [AAMI Claim Assist app](#).
