Leading online incontinence products store, Incontinence UK, unveils practical new fashion range, designed to make life easier for people living with incontinence.

Incontinence UK, a popular retailer of [incontinence pants](#), pads and much more, has unveiled a practical new fashion including open back dresses, trousers and nightwear; which look great but also provide incontinence sufferers with a helping hand in dealing with their condition.

Many UK residents suffer from varying degrees of incontinence at some point in their lives, and it can lead to embarrassment and depression; whilst affecting their everyday lives. But with clothing, nightwear, and even swimwear from Incontinence UK, people living with incontinence can enjoy discreet and effective relief.

The latest clothing collection includes Open Back Trousers for men and women. These expertly tailored trousers look completely normal, but they are much easier to put on than traditionally tailored trousers. Importantly, they're also easier to remove for people with continence problems who make frequent and possibly urgent trips to the bathroom. Men's and Ladies Open Back Trousers feature two large flaps, which overlap to cover the lower back and tuck under the seat. They're not only ideal for people with incontinence, but also those in a wheelchair.

The Richmond Open Back Wrap Over Dress is an all new long sleeved dress, available in pretty blue or plum fabric. This attractive piece features a wrap over panel at the back which makes toileting easier for the wearer and the carer. Continence and mobility issues can make the simplest tasks, including toilet breaks, more difficult. The Richmond Open Back Wrap Over Dress is designed to look beautiful for any occasion, but also provide the ease of use that many fashion items don't.

The pretty and practical Ladies Open Back Nightie is extremely popular with Incontinence UK shoppers, since sudden bathroom breaks during the night are often required by many

incontinence sufferers. This elegant nightdress wraps around the back, and look fantastic, but they're also very comfortable and allow for easy access when toileting. Available in pink or blue, the poly cotton Ladies Open Back Nightie can be delivered in just 2 to 5 working days.

But Incontinence UK shoppers don't just benefit day to day from this excellent fashion range. Customers will also find helpful specialty items like the [Incontinence Swimwear](#) Undergarment Brief. This innovative new product is a unisex swimming brief, designed for adults and teens who deal with incontinence. They wear the Incontinence Swimwear Undergarment Brief against their skin, beneath a normal swimming costume and it is not visible to anybody else. Thanks to this unique new piece, holidays and trips to the local swimming pool needn't be a cause for concern.

Pay a visit to the Incontinence UK online store to browse the entire new range of comfortable fashion items available. You could find a variety of wonderful pieces to breathe new life into your wardrobe and offer more comfort and convenience than some other fashion alternatives.
