Columbus Braces Patients Treated to Summer Fun by Orthodontists

August 29, 2012

COLUMBUS, OHIO (RPRN) 08/29/12 — Parents of orthodontic patients want to know that the doctor they choose cares about their child. Drs. Ronald Carmen and Jesse Carmen prove just that every day, and recently threw a summer celebration for their patients and families to further show their appreciation.

Carmen Orthodontics, a Columbus braces provider, is a family practice that strives to make each patient feel like a member of their family. Every other year, the doctors and their staff throw a summer bash to celebrate each of their patients. The doctors know it's the patients who make their Columbus children and adults orthodontics practice the best in the area.

More than 1,200 guests, which included patients and their families, enjoyed food, fun and sun at the Groveport Aquatic Center. They even enjoyed the doctors dancing to Nicki Minaj's "Starships," proving this father and son team knows how to put a patient at

ease.

"As a family practice, we work hard to show our patients that we view them as a part of our extended family," said Carmen, who, along with his son, provides clear braces in Pickerington for their patients. "The party is a way to continue to build on those relationships. Orthodontics can be fun."

Going Above and Beyond Standard Orthodontic Care

While most orthodontists only interact with patients while performing treatment, at Carmen Orthodontics in Columbus, braces are only a small part of the relationship. The doctors and their staff continually go above and beyond to ensure professionalism, along with a friendly and relaxed atmosphere for their patients.

The summer party was a piece of their formula for success. With ice cream, hot dogs, swimming and dancing, the pool party allows patients the opportunity to spend time with the staff outside of the office and build trust so when a patient has Invisalign treatment or another procedure performed, they know they are receiving care from someone who truly has their best interest in mind.
