

Green Route amongst the first of 'green' companies to exhibit at Burghley Horse Trials

August 20, 2012

Stamford, Lincs,UK ([RPRN](#))

08/20/12 — This year The Burghley Horse Trials will introduce The Green Lifestyle Pavilion as part of its pinnacle event.

[Green Route Ltd](#) is pleased to announce that the company is to be one of the first renewable energy solution providers to

exhibit at the Trials.

The new pavilion at Burghley aims to draw in a new range of exhibitors who will offer natural, organic and eco-friendly products to Burghley's 160,000 visitors. Exhibitors are selected for their ethical, organic and sustainable credentials.

Burghley Horse Trials is one of only six competitions of its kind in the world. With a prize fund of over £200,000, it attracts some of the world's finest horse enthusiasts and riders. In addition to this, Burghley is well known as a prestigious British social occasion. The event boasts a famous shopping village, over 500 trade stands, a food walk and seven specialist pavilions, including the new 'Green Lifestyle' pavilion.

The Green Lifestyle Pavilion was a natural progression for Burghley

Green Route Ltd

considering the ethos surrounding the social occasion. Elizabeth Inman, Director of The Land Rover Burghley Horse Trials, said:

“Hosting the launch of this new pavilion at Burghley confirms our support for this very important element of the Event.”

Green Route, along with the other exhibitors at The Green Lifestyle Pavilion, will hope to inspire visitors to adapt a more sustainable lifestyle, by educating them on the [green alternatives](#) available.

Green Route Ltd is a private independent company offering complete renewable energy solutions for all types of domestic, agricultural, commercial and industrial property. Green Route provides and installs everything from [solar PV systems](#) and [biomass boilers](#) to [heat pumps](#) and [LED lighting](#). Alongside this, Green Route offer a full range of support services including energy-efficiency training and carbon-neutral planting schemes.

Exhibiting at Burghley will give Green Route the chance to engage with visitors and establish energy solutions that are tailored to their needs. As an independent service provider; Green Route can recommend renewable energy solutions and carbon-reduction services, from across the full spectrum of technologies available.
