

# Libertyville Orthodontist Offers Free Consultation

December 20, 2011

Libertyville, IL (RPRN) 12/20/11 — CHICAGO AND GRAYSLAKE, ILLINOIS - Orthodontist Dr. Michael Stosich and his highly, trained staff is offering a free consultation to all potential patients in the Chicago and Libertyville, IL area.

During this visit, Stosich and the treatment coordinator will meet the patient prior to a 40 minute examination.

"The goal is for the patient to be comfortable and relaxed," says Stosich. "Any questions will be addressed." Stosich explains a number of things discussed in the first appointment.

## What Type Of Treatment

There are many different types of orthodontic treatment used including clear dental braces, metal brackets, Invisalign

and SureSmile. The type of treatment will be decided during the consultation.

## When to start

Depending on the severity of the case, the start time will be determined. The American Association of Orthodontists recommend that every child should see an orthodontist by age 7, according to the AAO website ([braces.org/learn/index.cfm](http://braces.org/learn/index.cfm))

## Will Any Teeth Come Out?

To create more space, the second bicuspid may be extracted.

## How Long Will Treatment Take?

Patient cooperation and case type will determine the length of treatment. Once the treatment is over, a orthodontic retainer will be provided.

## The Cost

The cost and insurance coverage will be sorted out and determined prior to the end of consultation.

The next step will be a follow-up appointment. X-rays, molds and photos will be taken, and the journey of braces begins.

## Learn More

To learn more visit this page: <http://identityortho.com/our-practice/>. To speak to a team member or schedule a complimentary consultation, call (847) 548-4200. Online appointment request forms are available on the website.
