

Space Saving BagButton is the Next Stage in Storage

May 28, 2010

Space Bag Storage Bags for a few Pennies.

Mossyrock, WA. ([rushPRnews](#))
05/28/10 — In 2009 the most innovative storage solution on the market was one many may never have heard of. But they will soon. For years now people have been using the Space Saver Bag to safely store items while saving space. But there was always the problem of a limited number of bags. One order costs almost \$20,

and there are always more things that need to be stored.

The Space Saving BagButton has solved that problem. It only takes one of these smart buttons to meet all storage needs. That's because the button works with any bag, trash bags, plastic bags, big bags, small bags, you only need one BagButton for all of them. Once the air is sucked from any bag, simply tie it off, remove the Space Saving BagButton, and use it on the next item that needs storing. And it costs less than one order of Space Saver Bags. The BagButton costs around \$15 *including* shipping and handling, and can be used on literally hundreds of bags, as many as needed.

Here's the comparison: Storing 21 separate items using Space Saving Bags, at their price of 19.95 (not including shipping and handling) for 7 bags, would cost \$59.85. That's before shipping and handling. With the Space Saving BagButton, you only need one, so for 21 separate items you have a total cost of less than \$15. That's *including* shipping and handling. That's a

total savings of almost \$45. And the savings increase the more that is stored.

The advantages are numerous. Keep winter clothes and blankets in a small, compressed space, keep out bugs and dirt, use for storage while moving, even camping. You can keep dirty clothes separate on a long trip instead of out in the open where they can begin to smell and take up space. It truly is a remarkable invention, and costs less than a storage bin.

That's why last year alone the BagButton was featured in popular spots like IKEA TV, the authority in storage, *Better Homes and Gardens*, the magazines *Which Caravan* and *Camping Magazine*, and Australia's National Magazine *On the Road*. So far 3.8 million people have discovered the Space Saver BagButton. They not only saved time and space, they also saved a *lot* of money. BagButton can be purchased online at www.bagbutton.com a live video demonstration of the BagButton is also available at the site.
