

The SSL Store™ is First to Qualify as a Symantec Website Security Specialist Partner

April 9, 2013

Saint Petersburg, Florida
([rushPRnews](#)) 04/09/13 —

—Symantec Corporation, one of the world's largest security software companies, has announced that **The SSL Store™ is the first company worldwide to qualify as a Website Security Specialist Partner.**

This new level of accreditation recognizes businesses that have demonstrated the highest level of expertise in website security and is only available to companies that were already Platinum or Gold partners of Symantec. Of the many benefits associated with being a Website Security Specialist Partner, The SSL Store™ will now have access to specialist online security blogs and roundtables to further ensure they can stay on top of the industry, in addition to Symantec's preferred partner chat service, which is designed to help streamline a high volume of sales and support

contacts.

“We’re thrilled and honored to be the first-ever recipient of the Website Security Specialist Partner designation,” said **Bill Grueninger, General Manager of The SSL Store™**. “Since our beginning, we have valued our partnership with Symantec and we will continue to take advantage of the opportunities they present us to further educate ourselves in the world of cyber security.”

Founded in 2007, The SSL Store™ has since grown to become one of the largest SSL providers in the world. The SSL Store™ employs more than 45 team members for their retail department, reseller channel, development team, and support staff. As a premium SSL service, The SSL Store™ is one of the only companies in the world that is solely dedicated to the management, provisioning, and implementation of SSL.
